COACHING PHILOSOPHY

This season will solely focus on our boys learning what good soccer is and building a base of proper technical skills and soccer IQ. Much like Dutch and Spanish academy structures, results will come secondary to playing the beautiful game through (1) Frequent Passing (2) Spatial/tactical awareness and (3) Individual creativity for team success. As an ex D1 college and semi-pro soccer player I can assure you learning to kick the ball harder and run faster than others can be done much later in life BUT soccer IQ and key fundamentals **MUST** be the focus in these first competitive years in order for our boys to love/play this game for a long time in a variety of environments!
